- You must pay attention to timings when reference is made to this. Incorrect timing is a mistake
- You must pay attention to your speech at all times. Incorrect speech is a mistake
- If mistakes are repeated they will earn you twenty strokes of my medium cane

Appearance

- You will wear no clothes unless I specifically require it in which case you will be notified. You will wear a metal collar at all times and in all places. There will be no exceptions to this.
- You will wear a chastity device, 24/7/365.
- You will be tattooed with a symbol and a number on your right buttock.
- You will keep your whole body free from hair.
- You will shave your head and under arms daily and keep the remainder of your body free from hair with an electric razor.
- You will shave your pubic area once a week when your chastity device will be removed for that purpose and for cleaning.

1. How to enter my presence on your knees.

You will not stand in my presence unless:

- You are being inspected
- You are carrying a large object
- You are in public

You will therefore enter my presence crawling on hands and knees with your nose touching the floor.

- You must be in this position before you enter my sight
- You will crawl to a position so that I can clearly see you
- You will stop, kneel up in position 2, and then bow.
- When your nose is on the floor this is kneeling position 3.

You will then kneel with your nose to the floor and your arms held straight in front of you pointing at my feet. Your knees will be spread slightly wider than your hips so that your thighs are angled outwards and your buttocks are raised.

This will be your normal position in my presence when waiting for instructions and is position 1. When I ring the bell to summon you to my presence you will have ten seconds to report at my feet in this position.

2. Entering My presence on your feet.

- When you are carrying a large object and it is not possible to crawl you may walk.
- You will hold the object so that your lower arm is horizontal,
- Your eyes will be cast down looking only at my feet.
- You will halt in front of me and spread you legs wide which position you will hold for a count of three seconds.
- You will then bow.
- You will hold that position for a count of three seconds.
- Any object you are carrying will remain upright whilst you bow.
- Once upright again you will kneel, spreading you knees gracefully as you lower them to the floor.
- You will kneel back on your heels as in position 2 and hold out the object being carried so that I can take it if I wish.
- Your arms will be straight and your head will be bowed low between them.
- You will hold the position until I snap my fingers. I may replace the item in your hands during this period.
- If I snap my fingers you will assume position 1 immediately.

3. How to leave My presence on your knees

When I give you an order you will first acknowledge that order by kneeling up in position 2 for a count of 3 seconds

You will then bow your nose to the floor in position 3 and remain in that position until I give you the signal to obey the command.

The signal to obey may be a snap of my fingers, the word 'go' , 'begin' 'move' or any other similar word.

You will then crawl from my presence backwards until you are about to disappear.

You will then kneel up position 2, bow your nose to the floor position 3 for a count of three seconds and then continue to crawl until out of My sight.

4. Leaving my presence on your feet.

- When you are carrying a large object and it is not possible to crawl you may walk.
- You will hold the object so that your lower arm is horizontal,
- Your eyes will be cast down looking only at my feet.
- You will walk backwards until you are about to disappear from sight.
- You will bow for a count of three seconds.
- You will walk backwards until you are out of my sight.

5. How to Crawl

Crawling on all fours will be your normal method of movement anywhere in my sight, with the exception of public view. You will crawl only with your nose just touching the floor. You will have your knees spread slightly wider than your hips as when kneeling in position 1. You will be required to crawl both forwards and backwards.

If you are carrying any item held between your teeth which, is the normal way you will carry things, your head will be raised just sufficiently to prevent the item from dragging on the floor.

If you are in my line of sight you will be required to crawl both up and down stairs, in both cases head first.

6. How to Bow

You will be required to bow from a standing position and from a kneeling position.

From standing you will have your legs spread as wide as possible.

Your shoulders will be pulled back and your arms will be folded tightly in the small of your back your chest will be pushed forward and your stomach muscles sucked in tight. Your head will be bowed forwards to your chest. This is position 4.

You will bend forward from the waist lowering your head as far as you can and at least until it is lower than your waist. This is position 5.

You will hold this position for a count of three seconds when you will return to the vertical.

If you are carrying an object in your hands for example a tray with items on it, the tray must remain horizontal throughout the bow.

From Kneeling you will have your buttocks resting on your heels.

- Your knees will be spread as wide as possible.
- Your shoulders will be pulled back and your arms folded tightly in the small of your back.
- Your head will be bowed down to your chest.
- You will then bend forwards until your nose touches the floor.
- You will hold this position for a count of 3 seconds.
- You will then return to position 2.

If you have an object held between your teeth you will bow your head down only until the object touches the ground and hold the bow there for three seconds
